

## 90ft Monohull

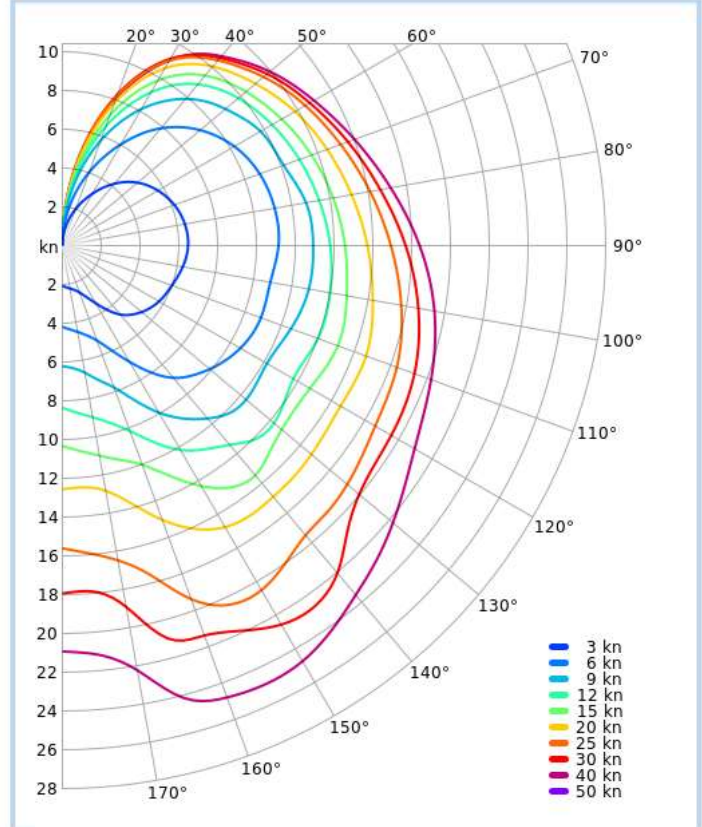

GENERAL ARRANGEMENT

ACTION PHOTO

POLAR DIAGRAM

SOL RACE RECORD

Sailonline's 90ft monohull, depicted here in the guise of Nautor Oy's 2002 Swan 90, has a long and impressive online racing record, which can be found at the link below. A frequent choice every year for several of SOL's twelve Ocean Championships races, this sleek machine also continues to see repeated action in such SOL Classics as the Tasman Double, Christmas to Christmas, Lake Superior Lights, and the Sail Around Turkey.

With a few tricky bumps in her polar and a considerable variation in optimum downwind angles across the Beaufort scale, it's a challenge to get the very best out of her. Enjoy!
