SOL RACE RECORD

Just a few years after Rod and Bob Johnstone persuaded Rhode Island's Tillotson Pearson to build the first J-24 in 1977, and a first successful J-24 Worlds later, a bigger brother was conceived; the J-30, a J-24 for the family.

Scroll thirty years on and we find her polar being raced on SOL for the first time. However, since then we have been taking her out – generally on her North American home waters – regularly, as can be seen at the link below.
