SOL RACE RECORD

The acquisition of the Dehler brand and yard in 2009 gave Hanse a platform to market a different type of yacht than their eponymous range of bulky, value-for-money cruisers.

Marketed as a regatta cruiser, the Dehler 45, designed by Simonis/Voogd in 2010, was the first of this new breed born out of the marriage of the Dehler and Hanse names, to be succeeded 5 year later by the 46 designed by Judel/Vrolijk.

Less voluminous than Hanse yachts of the same length and built to race, yet still comfortable inside, both the 45 and 46 are proper lookers, and the 46, launched on SOL in 2020, is offered with a series of modular racing upgrades. Online, she is quite the virtual flyer as well and you can see her racing record since her launch on SOL below.
