

How to Preview Upcoming Races

When you see a new race posted on the SOL Homepage, but the status is "Registration will open soon" this is how you can preview it:

Log in as the sol boat (Username and Password= sol) then just click on the "Go To Race" box beneath the closed race and voila! you may preview and even start sailing the sol boat. Remember, though, that others may be doing the same so sol may not do exactly as you ask of her!

NOTE:

1. This login works for active races too but the sol boat does not compete so is not steerable then.
2. The sol boat does not have chat privileges to avoid anonymous/non-attributable comments.
