SOL RACE RECORD

The 2016 Brisbane to Keppel Race was the first time the J-130 sailed on SOL. One of SOL's first polars with boatspeed variation up into storm force winds, she proved to be quite a handful.

Designed by Rod Johnstone in 1994, IRL, J-Boats made 43 of them over an eight year period.

In the real-life 2016 race, the navigator on-board "Ragtime" (in the photo) was SOLer Kipper1258 using the same polar as the SOL fleet on the yacht's Expedition system.
