

First 44.7A

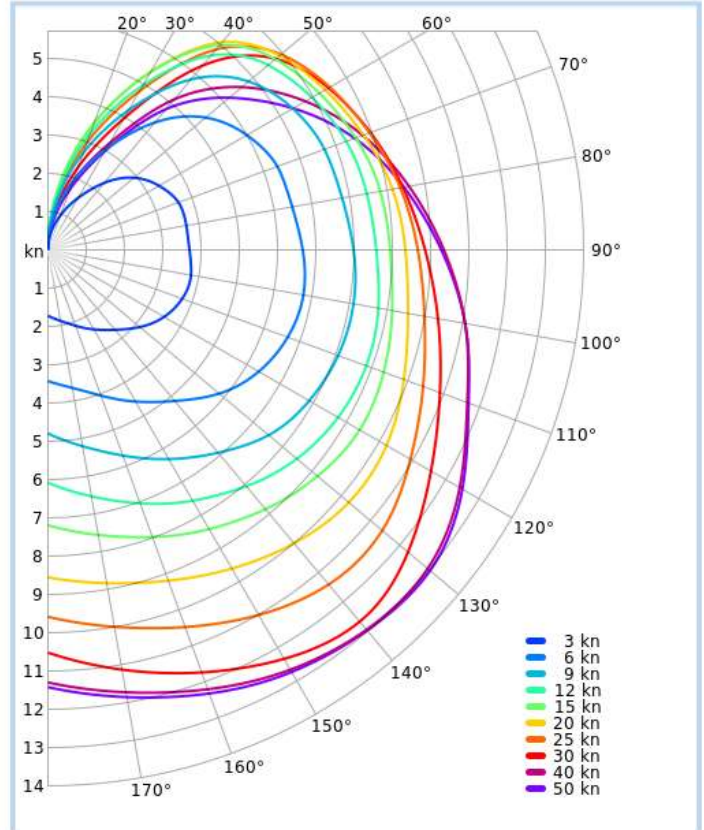

GENERAL ARRANGEMENT

ACTION PHOTO

POLAR DIAGRAM

SOL RACE RECORD

Designed by Bruce Farr and built by Beneteau, the First 44.7 was presented in 2004 in two versions, a cruiser and a racer – the two different keels in the GA drawing. But what is not shown in the drawing is that some owners, including SAILonline's very own SlideRule, converted their rigs to carry asymmetric downhill sails – gennakers!

SAILonline's polar for an asymmetric 44.7 naturally enough is based on SlideRule's IRL VPP. Brand new to SOL in 2022, her first outing will be/was that year's Newport Bermuda Race, in which the real Slide Rule is/was also competing.

Her virtual racing record since can be found at the link below.
