SOL RACE RECORD

Designed by Bruce Farr for Beneteau in 1995, the Platu 25 saw its first outing on SOL in 2013, when French SOLer FR_cirrus selected it as our yacht for the circumnavigation of the extraordinary flooded impact crater of Lac Manicouagan in northern Canada.

Since then, the Platu has become an official international ISAF keelboat class and been raced on SOL once or twice most every year, as per the Racelist linked to below.
