This is the first time that Sailonline has raced from Tokyo eastwards across the Pacific to San Francisco and, despite flying in the face of convention, it proved to be an excellent race. The inshore start could have been tricky, but the winds were kind as the fleet left Tokyo Bay, and on the approach to the Pacific leg the talk was all of latitudes and Great Circles. What to do?!

Our podium three are to be truly congratulated for a magnificent result, as always in the face of stern opposition. Please read below what they have to say about their success and how it was gained. It was all very well done indeed! For those of us not so successful, you can always see how your track compared with others at [hmm's SOL Race Data Centre](#)

Here's what our podium had to say:

Many are still on course, so please note that we will keep this race open as long as is reasonable but as always your rank at race close will be preserved.
