

Dear Friends,

After one year of participation in the SOL contest, it's the second time that I am winning the third place and I'm very happy about this.

From the beginning I saw that 8 players from the top 10 list of SOL were missing, so I thought that it was a good chance for me, to make a safe difference.

In the first turn (Dirhami) I was at the fourth place but, Karriv at the second place and Atlet at the third, didn't turn right so I was found at the second place. At Paralepa Mark it was the time for my default. Brazil and Chile were at the penalties as a result not to turn at the right time. Hmm took my place and I got the third. After that I tried to keep the third place and simultaneously waiting for a mistake from Hmm and Tejo who were the leaders. Unfortunately for me, these players never make mistakes.

It was a race without tactical problems but required right turns at the right time.

Thank you all for the great time and the pleasure. I really enjoyed this race.

Farewell and see you soon.

My best regards to all of you

AXMARIA / June 2014
