

Tiree to Cairn of Coli Sprint

When inspecting the course, I saw no problem – I just had to take the right course directly and no corrections. Keeping as close to land as possible. Hope that no one else was on the same thought.

Unfortunately, it was of course, others who had the same idea.

It was a very tight race, jumped between 1 and 15 place. As shown, there were no navigational problems. The shortest route to the line. I have no facilities than that the game offers, so you have to stay alert.

Read that first five within two seconds! First ten within six seconds !? That was close!

It was fun to reach the podium here in the West of Scotland as I spend a few weeks here every year, with relatives - my grandmother comes from this area.
