

This has been developed to a fast and furious race,

After the start the WX give a little advantage to the east sailor.

Set a couple of DC for the tacks and the off to the theatre.

The turn's lottery was mastered by outlaw, with a very nice round the can turn (IRL could not been better)

Coming back, I picked up the side with more pressure and favourable rotation.

This one was one of the rare situation where pointing to the middle of the line was faster than to point to a pin.

Well done all,

Hope to do this IRL, sound fun!
