

The race was very exciting and tactical.

Who chose to expand far east has been awarded and then for those who remained in the coast was impossible to reach.

On the first day of the race I always covered outlaw, and the day after he has paid me back in the same coin. Unfortunately for me, in the two nights of the race I was able to just put the AD and therefore the second day outlaw is passed back and then it was impossible to pass, because he is a great champion.

I am very happy with the result and the time spent than the existing record.

Talented all Solers that are finished in the top ten..
