

Very happy with this podium.

Well done to all the top ten.

The arrival was very close but the race was determined in rounding the north buoy. Who immediately went to W and then return paid the worst corner of navigation. Being night in Italy I must say that I merely set the boat North and then put in a dc cog to the south !!! folly ..... in the morning when I woke up and I was 3<sup>rd</sup>, with the buoy turned almost perfectly, I could not believe my eyes!

Really only luck this time and it is right that he who won committed much more to the race! Neuro  
Bravo!
