

Race 1

It was a beautiful race - fast enough to finish in time but not exhausting, so I have finally had the energy to follow it

Already at the start I committed the first error, I went along to the first gybe. And The ghibli has started to chase.

Another error that made me lose a lot in performance, a double involuntary gybe just before Stavros – Javakeda them' and' long gone ...for our good fortune.

The ascent after Parapola: The ghibli ..has chosen a route more luff up then often, the question was whether to go to W or to the East of Hydra - chose East because there was more pressure.

Since Peskasail – who was already in front and Naccr .. chose the West , then Naccr I think was distracted.. while Peskasail has gained in last edge even more.

Have fortunately been able to maintain at least the third position.

Thanks to all those who participated.

Kenza, of course, is ultimately too strong, and does not make mistakes.

Bravo Kenza – Very Good Peskasail

Race 2

After my performance in Race 1, I was hoping for a podium place in the second leg, but Kenza and Peskasail are too fast – then Javakeda has made a super performance, and Naccr is the champion that we all know.

I don't have much to say except BRAVI – the standard of the players has become very high.

ghibli /July 2015
