

Very tight sprint race with not much route opportunities.

Was in time with my first DC and did set DC for first tack as late as possible .. was happy to see max vmg course just perfect along coast and next also straight to Rum mark.

Not much late to Eigg waypoint, then decided to tack south early as possible at final run to finish line and approach finish from downwind side as line was bit angled to wind.

Very close, lost 5 seconds to race winner and beaten #4 aner by 4s :) .. could be bad start or one server jump late at Eigg :) .. happy finish.
