

Started on dc and checked the boat after approximately 15 min. Decided to tack as soon as possible after the first rounding while it was blowing more the further west you were. Did the same after the last rounding.

There were two tacks that were important, the tack to Rum and the last tack. I did them rather well and I was in the lead for the first time shortly after that first tack to Rum.

After Rum I decided to go straight to the rounding of Eigg and I was in the lead at that rounding. I also decided that I didn't want to do more tacks then necessary and I only did four tacks.

After the last tack I just had to hope for the best and I was lucky to beat Lou by one (!) second !

But it's always fun to win and today I was the lucky guy :)

PS. I have to say that frequent practice racing helped me to win :) You are all welcome to come and join in!
