

Smo was seeing good winds and when saw some of fast boats starting decided to take off.

Had DC for tack after first mark but decided to delete it and pinch little to get better winds and performance.

Then tacked, many boats tacked early back but decided to stay for awhile then tacked for next be tack to layline for mark, Win and Rumskib made extra tacks, maybe for better winds but did loose on that being same speed with Smo before.

Turn at mark was close enough and last WP quite sharp too, Smo ended 1st with good margin. Luckilly WX did hold.

Till next Timed,

Smo / June 2016
