

rumskib (GER) 15pts

kenza (RUS) 17pts

WINSTON_4 (ITA) 19pts

Once again in TIMED races it was virtually impossible to be sure that the window one had just run would continue to be the best one available. For this reason even the best performing Timed skippers happened to try multiple runs on each course to stay afloat in the rankings.

And again it has been clear that the overall level of skill for TIMED races has leveled a lot in the recent days: achieving top 10 here is always a challenge, let alone podium. The three top 10 lists include boats who have achieved a top 10 for the first time , and after three races we had three winners: one of them SOL myth Smo, who put everybody else in line in the Gibraltar race.

Rumskib got Q2, the very same way he got Q1: consistency!

A total of 123 boats (SYC members) qualified for Series rankings Q2 TIMED
