

The race "Sail Around Turkey" is like climbing at Mount Everest - test your ability. One of the diamonds in the racing season SailOnline.

A year ago, I wrote a report on this race. All that it says is overdue now. There is no point in writing the same thing twice.

One can only note that the win was much more difficult this year.

Many thanks SailOnline.org for the opportunity to participate in this challenging and exciting race.

kenza / August 2016
