

First 36.7

GENERAL ARRANGEMENT

POLAR DIAGRAM

ACTION PHOTO

SOL RACE RECORD

Added to the range by Beneteau together with the 47.7 and 43.7 for season 2000, the 36.7 was not the first First **.7, but neither was it the last. These honours are held by the 40.7 and 21.7 respectively. Like all Firsts, the 36.7 gives its owners plenty of “bang per buck”, both as a spacious cruising yacht and a competitive handicap racer.

However, it took till 2014 for the 36.7 to appear on SOL, the year our own hmm purchased one in Germany and sailed it home to Finland, and our fleet joined him on the delivery, virtually, and on SOL we disguised her as a 40.7, the first of its kind, as a polar for the 36.7 was then not obtainable at short notice. That has since changed, as you can see from the 36.7 racing record at the link below.
