

WINSTON\_4 (ITA)

longreacher (CAN)

MustangMark (AUT)

This time **WINSTON\_4** did not leave much hope to the competition as to chance of winning the Q3 Sprint.

Based on five races and without discards this championship is usually open to any result till the very end. Not this time. After four races, even including one gigantic mistake that brought WIN from 5/6 position to 11th in the last tenths of a mile of race 3, his lead was such that stress was not an option during the last sprint.

By excellent consistency during the five legs **longreacher** and **MustangMark** secured the remaining podium spots.

Good news is that Q4 will start again from scratch, giving equal chances to everyone.

A total of 103 boats (SYC members) qualified for Series rankings Q3 SPRINT
