

Congratulations to longreacher with a confident victory! Well done!

Congratulations to all the participants in this very difficult race!

My strategy was simple: to control opponents in Championships (OCCH, RTWR). This strategy is fully justified.

Very happy with the race results, although the crew heavily tired.

My cat took care of our sport life, and chasing me around the apartment after each Wx. After finish, we slept with him for two days.

Once again I congratulate all SOLers!

And as always, thank SailOnline.org for this nice race!
