

*Again this time, I can't tell you how I did # 2 ... (I'm happy, it's my tenth podium in SOL).*

*I remember having chosen the route east for the start and, after start, the battle with Dingo, Rum and Smo.*

*Then I only remember that at certain moment, the stern of the great unattainable Limesinferior appeared in front me and the bow of Dingo was ever closer and closer ...*

*After this beautiful race, I think that Limes will have to change the name of his boat: LimesSuperior is more appropriate.*

*Thanks SOL Race Committee and all SOLers friends: this race, as usual, was special.*
