SOL RACE RECORD

It's been a long and heady journey for Finland's Nautor boatyard, since the launch of its very successful Sparkman & Stephens designed Swan 36 (also a yacht in the SOL boatshed) in 1967. Changing house designer from one iconic name to another at the stately rate of roughly once a decade, Nautor's yachts have steadily become ever bigger, ever more luxurious and ever faster.

The Club Swan 50 continues this trend; axe-bowed with a wide run aft, from the board of successful Volvo RTW designer Juan Kouyoumdjian, she's quite the sumptuous downwind sled. New to SOL just a year after her IRL launch, enjoy!
