Back in 2010 past SOL master 76Trombones modelled his Clipper 240 polar after the three-masted "extreme clippers" of 240ft LOA built in the US towards the end of the "era of sail". These ships owned the majority of offshore sailing records for more than one hundred and thirty years, only being displaced by modern purpose-designed sporting boats towards the end of the 20th Century.

A fine vessel. Enjoy her!
