

# Shackleton Challenge 2018 - Leg 2

---

I started from work, and just did a fast course setting as I was flying and going to a crew party as soon as we landed, so the ship sailed on auto for 36 hrs, before i got to have a look.

Then we started sailing the slow big ship, and not being a router sailor, as I am always SOTP, I make my plans as I go along, looking at new winds, what's coming, and where our "big sailors" are heading. This time i was in luck :)

I sleep every night and only check in when I have time - for me it is just fun to sail, and to be a hunter in the back as I never like to be at the front. I try to get as close as I can to the best ones so getting to be #3 is great, but I can also be happy if I get better than 50. :)

Sailing on Sailonline nice although sailing in reality is better.

Now it is the season for sailing in here

Its just Fun.
