

# Mistli's Birthday BBQ Race 2018

This is a race that suits me very well, especially since it is in my home waters.

My marina is at Gålö that is just a few NM:s North of Mysingeholm wp.

I know Stockholm's archipelago quite well, but it is absolutely not an advantage when sailing with – and against- competitive SOLers..

From the start at Revengegrundet Lighthouse it was easy, the hard part was when to tack into Mysingeholm. At the chart it looks just like gravel but there are a lot of beautiful islands to visit.

After rounding the waypoint, I was in top 10 and started to tack down at the Mysingen bay.

Just south of the island of Utö I previously found a place to sail out to the Baltic sea, unfortunately I was not the only sailor to spot it..

At the next waypoint I was in a good spot together with bonknhoot, Sadlersailing and Kipper 1258.

On the way to Trosa it was nearly straight on and the way was quite easy to predict.

Thanks to SOL Team for yet another fun race!

Cheers Jan/sassy63
