2018 SUPER-SOLER CUP

The official results for this Championship have been posted and the PRIZES announced here:

The series for 2018 included all results from the eight Ocean races, twelve Timed races and the sixteen Sprint races giving a total of thirty-six races. With a discard of just five races, that leaves thirty-one races to score for the SUPERSOLER Cup.

So far as I can see Kipper1258 only missed two Sprint races in the whole season and having won almost everything else (except the Ocean series) it is not surprising that he has smashed the SUPER-SOLER series by a margin of 102 points from rafa with bonknhoot a further 84 points behind rafa.

Honourable mention should be made of rafa who came second despite having to score an un-discardable Did Not Start in the Sprint series meaning he had to count high points in this Super-Soler series which otherwise would have seriously closed his gap to Kipper1258.

The balance of the top ten were as follows in numerical order:

- **Bimmer**
- **sassy63**
- **robert1**
- **brandystrega**
- **Frangipani**
- **Go4iT**
- **Little Surprise**

In closing I note that several places in the top ten are taken by long-term SOLers and so just maybe there is some reward in persistence?

For 2019 the SUPERSOLER cup comprises forty-two races out of the forty-eight that include twelve Ocean races, sixteen Sprint races, eight Timed races and twelve SYC Championship races.

The NOR will shortly be published on the SOL home page for your information.

We hope you enjoyed your SUPERSOLER series in 2018 and the races that we will offer you in 2019.
