Timed races are an exclusive feature of SOL and they permit frequent runs over the course during a twenty-one day period (for 2018). Placed as they are around the World a range of wind conditions can be experienced but often only one favoured period presents itself.

Once again Kipper1258 showed his skill with five bullets from the seven races (out of eight) to count. rafa finished second with thirty-eight points and two podiums. azur was third a further twenty-nine points behind rafa. This does suggest that even making the Timed race open for three weeks, whilst affording more opportunities for runs, has not removed an expert's margin

The Timed Championships will continue into 2019 but with a reduced duration as it tends to dominate the month when open and if there is a light period it does not offer an alternative diversion from Other Races.

The NOR will soon be published on the SOL home page for your information.

We hope you enjoyed Timed Racing in 2018 and the package that we will offer you in 2019.
