Timed races are an exclusive feature of SOL and they permit frequent runs over the course during a fourteen day period. Placed as they are around the World, ranges of wind conditions can be experienced in the nominated yacht selected from our marina but often only one, but sometimes two, favoured period(s) present themselves.

This year **rafa** won the battle with **Kipper1258** to claim the Championship with his seven out of eight races totalling just 32 points (all his scoring results were in the single figures). **Kipper1258** slipped from his success in 2018 but yet again he had six single figure scores and a 14<sup>th</sup> to total 34 points. **StIngFI** was third with 65 points a further thirty-one points behind **Kipper 1258**.

Reducing the race open duration from three to two weeks seems to have provided enough opportunities for multiple runs and possibly making the runs a bit longer, with a new weather forecast during the run, has challenged the best to choose the optimum time to perform a run.

The Timed Championships will continue into 2020 with an unchanged format.

The NOR has been published on the SOL home page for your review.
