SOL RACE RECORD

Gold for their 470 in that class's inaugural Olympic Games in 1976, first series yacht builder to have one of their designs – the Sprinta Sport – recognized by the IYRU (predecessor of World Sailing) as a one-design international offshore class in 1980, and 3/4 Ton Cup world champion with their all-conquering DB2 in 1984, the Dehler Werft has known great highs but also some deep lows, leading to changes of ownership in 1998 and in 2004, and most recently in 2009 on acquiral by the Hanse Group.

But you can't keep good men down and so it is that Karl Dehler, erstwhile 1984 3/4 Ton Cup winner, and son of co-founder Willi, has continued the Dehler tradition of innovative production racing yacht designs, with the Dehler30 OD of 2019 his latest great success. Sailonline is pleased to offer you our interpretation of her very speedy polar!
