SOL RACE RECORD

Based in La Rochelle, Dufour Yachts has been building yachts since 1957. Like Citroen cars, the multitudinous designs the company has launched – many to great acclaim, some to mild opprobrium – have regularly been innovative to the point of quirky, and every dimension of demand has been explored, from performance to live-aboard to luxury.

Thus, at the turn of the millennium, Dufour commenced an association with Italian naval architect Umberto Felci, to design a series of plum-stemmed, long-waterline hulls that sail fast and as racing versions, rate well, chief amongst which was their Dufour 40 Performance. Belatedly, in 2020, SOL introduces this iconic yacht to her boathouse for your enjoyment. Race her hard.
