SOL RACE RECORD

Harry "Buddy" Melges, has, arguably, been the World's most successful and versatile all-round winning yachtsman of the 20th Century, winning World and National titles in dinghies, scows, iceboats, keelboats, Olympic classes and the America's Cup, inland and offshore. Almost equally so has been the company that bears his name, Melges Performance Sailboats, of Zenda, Wisconsin, USA. Founded by Buddy's father, Harry Snr, in 1945, and nowadays run by Buddy's son, Harry III, Melges has built and marketed a never-ending list of one-design keelboats, scows, rowing- and powerboats.

The Melges 40 is a more recent addition to the company's boatlist. Designed by Spain's Botin partnership and built at Premier Composite Technologies in Dubai, the 40 is a no-holds-barred offshore one-design flyer, supported by an active Class Association. She's an online flyer now as well!
