SOL RACE RECORD

On the shores of the Mattsee in Austria's Salzburgerland is a boatyard – Steiner Nautic BootsbaH. It's been there and in business since the dawn of the 19th C and today every imaginable aspect of the leisure marine market is addressed – dayboat hire, sailing school, motor, sail and e-boat sales, new and second-hand, and boatbuilding in modern materials but also in wood, in particular fabulous varnished Jollenkreuzern.

Perhaps their biggest project ever has been the Hochseeyacht Lizza Forte. Built in 1989 of gleaming mahogany planks, after a complete renovation by the yard in 2004, the high top-sided 40-footer circumnavigated the globe under the command of Wien's Matthias Schlager. She came to SOL in 2012 as SOL's and an IRL entrant in the last running of the Ecker 1000 from northern Croatia to southern Turkey. When will we sail her and that race again?
