

RTW 2020

Great series of 4 races, I was trying to be in top 15 before Uruguay to Cascais race.

With my win in Cascais, I get the third place in the series.

That is awesome, most because I can see the power of good results in the races isolated, and not only be average in all races.

It is rare I miss a SOL race, I try to run all of them, but sometimes real life events put us away from the race, and that reflect in the rankings. For me, stay in TOP 10 SYC rank is a hard task, but it is a big honor to share this with such great sailors in SOL, and to be there all you need is to dedicate to all races.

To be in the podium of a series like that, represents a lot for me.

But to stay in the top will be my challenge.

Stay safe!
