

Rankings by Nation

Quarterly update from SRC

2021 end of Q2

At the end of the second Quarter 2021 , or 54 races in all, we can look at a “provisional” situation that seems to have fixed both the podium golds. (Individual and Team). As to second and third spots the fight for both Individual and Team has increased in momentum and the result promises to be highly uncertain till the very end of the year.

In actual facts, as signaled in the relevant Forum thread, the total races for the first half of 2021 have been 55 , but for the purpose of issuing this report in timely manner the accruals to Nations rankings of last race of June (Tall Ships Leg 1) have been deferred to July and therefore will be part of Q3.

In Detail :

INDIVIDUAL : **Poland**, thanks to super-performance of its leading SOLer also in Q2, is keeping at very safe distance the two runner ups **USA** and **Great Britain**. Being the numbers 16, 7 and 5 , everything can still happen, especially for Silver and Bronze, and there is a number of Nations not distant from podium actually with 1 to 4 points.

TEAM : Very similar situation in the Team fight :

USA, super powerful Team since mid-2020 has basically closed the 2021 competition for Nations Teams well ahead of year's end. With 31 victories , or 2 and half times the number of points of actual second in the provisional ranking , the USA are again the **GOLD** star of Teams rankings. **Italy** with 12 points is trying to secure a solid silver.

Behind , all the other Teams can aspire to bronze , with Australia and Brazil in better position for the time being.

SKIPPER : (For medals)

In 2021, as before, we have in place a scheme aimed to reward that Skipper (Individual) or those Three Skippers (Team) who more than others have contributed to the final position of his/her/their National Flag in the Rankings by Nation . The scheme rewards participation as well as results.

We are now in the position , at the end of this second quarter , to simulate which Skippers would be rewarded **IF** the situation would be that of year end 2021 :

INDIVIDUAL SKIPPER :

Poland as you have seen is in **GOLD** position. The Polish Skipper with more points than any other one is **WRmirekd** , with 286 points. If this will be the result at the end of 2021 he would receive a large Gold Medal to record his achievement in the Rankings by Nation (Individual).

USA is today in **SILVER** position . The US Skipper with more points than any other one is **FreyjaUSA** with 132 points. If this will be the result at the end of 2021 he would receive a large SILVER medal to record his achievement in the Rankings by Nation (Individual).

Great Britain is at this time in **BRONZE** position, and the top British Skipper, in as far as individual results is **Sadlersailing** with 44 points. If this will be the result at the end of 2021 he would receive a large Bronze Medal to record his achievement in the Rankings by Nation (Individual).

Hopefully reading the above simulation everyone will enjoy a better understanding of the Skippers reward mechanicals for Nations Rankings. (Individual)

TEAM SKIPPERS :

USA is leading by far the Team rankings. The interesting challenge will now be that of securing the best three positions amongst the individual Skippers , to get those three GOLD medals that will ratify the USA leadership. At the end of June the three skippers with best "US Team by Nation" score are : **FreyuaUSA (1049)** , **sailj29 (576)** and **Garagiste (346)**. If we were now at year's end these three skippers would receive (each) a Gold large medal for Team rankings by Nation for USA's victory in the scheme. Behind them there is a good number of excellent US SOLers who will try to attack them in the second part of the year.

Italy is in SILVER at the moment , and the three Skippers with best "Italian" Team score are: **Sax747 (790)** , **brandystrega (558)** and **AL53_SSta (493)**. If we were now at year's end

these three skippers would receive (each) a Silver large medal for Team rankings by Nation for Italy's second place in the scheme.

Australia is presently in BRONZE position, and the three skippers with best "Australian" Team score are : **Kipper1258 (654), Tyger (361) and Dingo (314)** . If we were now at year's end these three skippers would receive (each) a Bronze large medal for Team rankings by Nation for Australia's third place in the scheme.

Hopefully reading the above simulation everyone will enjoy a better understanding of the Skippers reward mechanicals for Nations Rankings. (Team)
