

BRISBANE TO HAMILTON ISLAND 2021

The race started very well for me rounding in the lead the first mark, and after a mistake from Rafa who missed the second one after overtake me, I also was ahead after the second mark, with Tyger, Dingo and others very close.

The next night, I did a mistake after the 4:30 WX setting a straight line to the tip ahead not doing what routing said, and Dingo and Cippalippa overtook me, with Freyja very close too.

Since then, the four of us protagonized a very nice and funny fight, with many changes in lead and podium positions. On the third day, I almost hit a tiny island which I saw in the very last minute, to lose the third place there, regaining it the next day, the last one, after a mistake from Freyja who was less lucky than me, and stopped there for a few minutes. That gave me the chance of getting another podium, although a dramatic fight among all of us continued to the finish line.
