RANKINGS BY NATION 2020

INDIVIDUAL AND TEAMS

Some years ago those who were already members of our great Community were enjoying the “WIZ rankings”, amongst which the rankings by Nation were very popular indeed.

With the beginning of 2018 we have re-introduced a similar format.

Here the mechanicals, that continue to be valid in 2020 :

GENERAL

- All SOLers, irrespective of SYC membership, will contribute to the “INDIVIDUAL RANKINGS BY NATION”
- Only SOLers in SYC status at the end of a race will contribute to the “TEAM RANKINGS BY NATION”
- Each race starting in 2020 accrues points to both rankings
- At the end of each month a provisional situation for both rankings will be posted here.

INDIVIDUAL

- Whilst in the Olympics the “medal list” includes only Gold, Silver and Bronze, at SOL the Medal List extends to positions from 4th to 10th
- The rankings will be ordered by higher ranking position (E.G nation with 1 Gold and 3 Silvers will precede nation with 0 Golds and 5 Silvers and so on)

TEAM

- The best THREE SYC member SOLers of same nation finishing in top 150 at the end of the race contribute their points to their nation for given race.
- All three boats must have finished the race (DTG = 0)
- EG : Nation USA – boats A=10th, B=21st C=30th = USA qualifies for provisional Nation Team ranking with 61 points.
- When all the provisional Team scores for given race are set then they will be ranked from lower to higher, and from First to tenth only. This will be the Nation Team Rankings for that race (From Gold to 10th)
- For clarity : THREE SYC member boats of same nation in top 150 needed for provisional qualifying, then the score needs to be in top 10 Team scores. It is possible that less than 10 positions for Team rankings by Nations are recorded for any given race (lack of at least ten qualifying Teams within all SYC members finishing boats). In that case the Team by Nation ranking for that race will end short of 10.
