SOL RACE RECORD

The acquisition of the Dehler brand and yard in 2009 provided Hanse a platform to market a different type of yacht than their eponymous range of bulky, value-for-money cruisers, and the Dehler 45 was their first attempt towards this differentiation.

Marketed as a regatta cruiser, the 45, designed by Simonis/Voogd in 2010, was the first of this new breed born out of the marriage of the Dehler and Hanse names, to be succeeded 5 year later by the 46 designed by Judel/Vrolijk. Less voluminous than Hanse's of the same length and built to race, yet still comfortable inside, both yachts are proper lookers, and the 46, launched on SOL in 2020, is offered with a series of modular racing upgrades. She is/will be a virtual flyer as well and you can see her racing record since online launch below.
