SOL RACE RECORD

The Swan 36 is Finland's Nautor Oy's very first production yacht. Launched in 1967 and designed by the world-renowned naval architects Sparkman & Stephens, who at the time had multiple Admirals and America's Cup winners to their name, she is typical of her day with long overhangs, a narrow hull and plenty (3600 Kg) of ballast in the keel. When the design was discontinued in 1971, 90 Swans had been borne in Källby, just outside Jakobstad.

As venerable on SOL as IRL, the Swan 36 with her smooth lines and even smoother polar was first seen on Sailonline in 2011 and has been smoothly racing virtually ever since.
