

# LOSHRS 2021 RACE

This fast race on the Ontario Lake waters was again all about roundings. With all the front pack racers very close each other, we arrived the northern mark, where a very good rounding took me to the podium places.

From there an almost straight line took us to the south mark, before we sailed back to Toronto. There another very good rounding set me in a windward position coming north to rafa and Freyja, the two main rivals to take the win.

It was pretty late in Spain and I went to sleep for one hour or so, but when I got up again my last tack had been too delayed, and although I have a better angle, couldn't catch rafa and Freyja in the last leg to north, who beat me for only 9 seconds

Enhorabuena rafa and congrats Freyja, an honour to sail with you guys, very well done.
