SOL RACE RECORD

The change in sponsorship of the Single-handed Transatlantic race (STAR) from Observer paper to Carlsberg brew in 1988 also marked the launch of ORMA (Offshore Racing Multihull Association) and its multihull Open 60 class, the latter in direct response to the seriously escalated costs and risks that had accompanied many of the entries in the 1984 race.

Although catamarans were permitted by the rule, trimarans quickly became the 60 foot multihull of choice, and SOL's version of such a creature first hit the virtual waters of our Global Self-consistent Hierarchical High-resolution Shoreline GHSS tiles in 2007. We have been racing her regularly ever since.
