POLAR DIAGRAM

SOL RACE RECORD

Broke they may have gone, and capsize they do, but SOL loves its giant Gunboat 90, as you can check out from this 90ft hi-tech, hi-performance luxury catamaran's Racing Record at the link below.

As exciting in real life when its 2007 Morrelli & Melvin designed carbon hulls start to bounce and boom through the seas at 20kn plus, as in SOL's reality hopping and bouncing across one polar dip to the crest of the next, she is a proper handful!
