SOL RACE RECORD

Rosättra Båttvarv at the head of the Norrtäljeviken in Sweden have been building sailing yachts since 1886. Nowadays, mostly they are called Linjetts. They are sturdy quality cruiser racers, and the Linjett 33, designed by Mats Gustavsson in 1994, is a good example of the type.

Introduced to SOL in 2010 for the Norrtälje Maze Race, we have taken her out, usually in northern waters, several times since then.
