SOL RACE RECORD

SOL's polar for the 90m barque was modelled on a Sail Training International Class A vessel, such as the Venezuelan Navy's "Simón Bolívar" shown in the action photo adjacent, by SOLer 76Trombones, using performance notes for Germany's "Gorch Fock", a near sister ship of the "Simón Bolívar", as seen in that vessel's General Arrangement drawing top left.

Launched on SOL in 2012 for that year's race from St Malo to Lisbon, the 90m barque's full SOL racing record can be found via the [Racelist](#) link below.
