

## MISTLI'S BIRTHDAY BBQ 2024

Start of course with tack in close-hauled while avoiding the islands.

In this game, it was ALP317 and Vida Maldita who were the strongest and passed first Mysingeholm. I even thought I had lost the race after making a mistake between port and starboard when entering a DC.

I had a lot of luck on the following two manoeuvres, especially getting closer to the coast, and I don't know how, I found myself in front at the Oja mark. Then there was no more thinking, it was straight forward.

thanks to the other competitors for opposing; I loved this race.

And happy birthday to Mistli, I will remember the date - my first and only victory (so far, Ed.) in sailing.
