

MISTLI'S BIRTHDAY BBQ 2024

Smo starts Mistli BD BBQ whenever possible as it's almost home waters, nice people and always great fun to match fellow Swedes. This time was going to sail on DC's all the way to first WP but pretty soon it came evident that it will not be possible as that famous DC predictor was soon off some 30 seconds after some tacks, no idea why. So had to adjust it before going out and had to wait for a suitable moment. Also made maybe too many tacks for first DC's performance-loss-wise but thought that it was better for wind angle and tried to include some perf loss management tactics.

So there was a moment on straight line, new WX and cycled to shop but also visited library to throw in some more DC's. Then back home second WP that went ok, without DC's could have gone longer tacks that might have saved little time for performance loss. I think there was minimal shift before second WP so tacked west as early as possible while Vida who has won this last years went little more south and KaSToR in middle, not sure if I gained there. Second WP went fine and then it was pretty straightforward.

At the end Smo lost to KaSToR 18 seconds (first victory?, congrats) and beat Vida 11 seconds. Time for another podium, I think Vida won 2022 and 2023 :D

Best Swe was sassy #5, Farmor nicely 8 and Mistli 13. Congrats Mistli for always, maybe someday Smo sails here IR..

Meanwhile Finland had first TYPHOON ever two days ago, hope all are safe when sailing and in general too.

Stay safe.
