SOL RACE RECORD

Searching for new ocean greyhounds for 2025, we came across this perhaps slightly aspirational polar forming part of the marketing literature for the Rapido 60, a high-end high-performance cruising trimaran from the board of Morrelli & Melvin and built by Triac Composites in Vietnam.

With a top speed of 32kn, our online Rapido 60 more than likely outperforms a real Rapido, but, hey that's marketing. Fast, but only in the right conditions, and at the right wind angles. Plenty to manage then, online!
