SOL RACE RECORD

Trouble with Beneteau is the total plethora of boat classes they have built over the years. Take the Figaro. Which one you may will ask? There is the 2, the 1 and the Solo, and now since 2020 there is the III Foil!

Designed by Van Peteghem Lauriot-Prévost (VPLP), famed Vendée Globe specialists, she is the little but loud sister of the foiling IMOCA 60s but with the foils curving in (safer?) rather than splaying out, as well illustrated in the action photo of Ireland's Tom Dolan, overall winner of the 2024 Solitaire du Figaro. "Maith and fear, Tom!"

As the prescribed one-design for the Figaro as well as the biennial Transat en Double, more than fifty III's have launched since inception, and naturally SOL is delighted to now offer all online racers the opportunity to race her virtually.
