

**Dear e-Race committee members,**

**Good morning!**

**Some good time passed since my last race at SOL, but yesterday I visited the homepage and happily noted there was a race that suited what I was looking for! It took me same time to clean the rust and get used to the panel and the chart. I love its simplicity and the playability, making it easy for any newbie to compete (almost) equally!**

**So, for this nice, short, fun race... THANKS to you all who work to make it possible!**

**CharruaExpress crossed the starting line on 21/05, completing the race in about 16 hours or so.**

**Actual ranking positions my boat #83 with 102 nm logged.**

**Screen print attached for your confirmation.**

**Thanks a lot! See you in the water next one!**

**Buenos vientos!**
